NEW YORK OR SAN FRANCISCO

ELECTRIC BELTS,

Bands and Appliances (the only genuine) can be procured from the **PULVERMACH & GALVANIC CO.,** Cincinnati, O., New York, N. Y., or San Francisco, Cal.

Send to the office nearest you for Free Pamphlet and The Electric Review, containing full particulars.

Do not buy cheap imitations, especially those who **FEEL** and **SO** called Electric Belts, etc., on trial.

INSANE ASYLUM.

Elsewhere will be found an article from the Sacramento Bee descriptive of the contemplated Asylum for the State as planned by Architect Cook, upon the request of the State Board of Commissioners to submit plans and specifications for such an institution. Mr. Cook seems to have been imbued with the idea that Nevada wanted something very grand in that line. Of course, it is entirely out of the question for us to even think of having such an expensive building as Mr. Cook has planned. Nevada does not need anything of the kind. The Asylum in which our insane are now kept at Stockton did not cost to exceed \$40,000, and here in Reno where building is as cheap as it is in Stockton, it is very certain that an Asylum, suitable for all present purposes can be constructed for \$50,000. The Asylum can be so built that an annex can be put on whenever needed. For \$50,000 the State Prison, at Reno, could be completed, and then the State would have the present Prison at Carson which, at slight expense, could be changed into suitable quarters for the insane. It is very strange that \$40,000 quarters are good enough at Stockton, and yet when it is contemplated building at home, the cost swells up to a quarter of a million. The magnificent new brick school house built in Reno cost less than \$10,000. A building three times its size would more than accommodate our insane patients. Langdon & Clark are probably happy over Cook's report, and by putting \$20,000 with the lobby boys undoubtedly hope to get another four years contract and \$250,000 from the State by legislative action this winter.

The Southern Extension.

In writing of the southern extension of the proposed Nevada & Oregon road, the Carson Times says: From Reno it is proposed to run to Virginia City, Carson, Bodie and other eastern points. The line will pass over the Truckee Meadows at Steamboat creek, thence over the Washoe divide on the east side of the lake. From Washoe City a branch will be swung around the face of the mountain to Virginia City, a distance of fifteen miles.

The highest grade will be 100 feet to the mile, though the average grade will be but 85 feet. Even up on the curves will necessarily make the grade steeper on tangents, yet the average may be fairly stated at 85 feet. For a distance of eight miles all of the valleys in the vicinity will be in sight, affording grand and picturesque views of diversified scenery.

The line from Washoe to Carson will tunnel the mountain at Lake View without interfering with the Virginia and Truckee tunnel, and will for quite a distance hug closely the waste dumps of the latter road. The Carson terminus will be in the vicinity of the old barn south of King street. Eventually it is the intention to extend the road to Bodie and Camanche, direct, by way of Smith's valley, over Sweetwater summit, thence up East Walker canyon following the East Walker river to Bridgeport. Colonel Moore is the principal director of the preliminary work of the enterprise. The capital of the company is \$3,000,000, mostly subscribed in the East, though 300 shares have already been taken in Susanville, Cal., and vicinity. Reno is the company's principal place of business.

The preliminary surveys have been made under the direction of H. G. McClellan, chief engineer, with Mr. Loring as his principal assistant. The project is a comprehensive one, and though many difficulties attend its final completion, the resultant advantages will be so great that it will doubtless be fully carried through and prove of immense benefit to the whole section which the iron belt will pass.

NEWS OF THE MORNING.

Garfield's official majority in New York is 20,842.

The official vote of Oregon gives Garfield 763 majority.

Judge Key has decided that the conduct of the express business, as such business, is no part of the duty of a railroad.

The latest reports of the condition of affairs in Ireland are alarming. The peasantry appear to be all arming for a determined resistance.

There is no doubt that efforts are being made to consolidate the U. P. and C. P., with every probability that they will prove successful.

Although the details of the new treaty with China are not at hand, it is generally understood from information recently received from the Commissioners that the stipulations will be perfectly satisfactory to the citizens of the United States, especially the Pacific Coast.

Professor Woodward, Supervisor of the Census, has completed his work of re-enumerating the city, and announces officially that the population of St. Louis on the 1st of last June was 340,915. This is an increase of 26,719 over the census taken by Supervisor Solomon.

THE NATIONAL LANDS.

(S. F. ARA.)

The distance from Mexico to the Canadian Dominion is about 1,100 miles, and from the Pacific to meridian 100 of west longitude, the average limit of dense settlement in the Mississippi Valley, the distance is about the same. In this vast region, with a total area of 768,000,000 acres, the Nation owns, probably, 600,000,000 acres, which are offered to settlers without charge, including much desert, and much barren mountain, but also vast areas of fertile soil, with genial climate.

The people have been told by falsifying demagogues that they have been robbed of the best part of their property in this grand domain by the railroad land grants. It would be difficult for the most unscrupulous hunter after political spoils to invent a more disreputable fiction. The land grant to the Central and Union Pacific Railroads was equivalent to a strip twenty miles wide, through land nine-tenths of which would have been worthless for a century without the road. It was a strip twenty miles wide out of a region 1,100 miles wide—one mile out of 55, and this is the only railroad now open from the Missouri or Mississippi to the Pacific, though grants were made to three others. And this one grant has been practically of little benefit. The Central Pacific Railroad Company has 11,000,000 acres of unopened land grant between Sacramento and Ogden; and in 10 years has not sold 500,000 acres in the same region, though it has to pay high taxes. The available land grant of the Central Pacific has hitherto amounted to about 800 acres for each mile.

A strip of 20 miles wide—or to speak more accurately, alternate sections, like the blocks of a checker-board, along a width of 40 miles—was offered to the Texas and Pacific Road from the line of Texas to the Pacific, but this company failed to build its road, and the Southern Pacific built the line without a land subsidy. Congress offered a strip twenty miles wide to the Atlantic Pacific for a road to be built on the 35th parallel, and a strip 40 miles wide to the Northern Pacific for a road about the 47th parallel, and both companies are at work. These are the railroad land grants, extending from the Pacific to the 100th meridian, or farther East, and were designed to give access, as we have said, to a region 1,100 miles wide from north to south. The grants that have been earned and probably will be earned, have an aggregate width of 80 miles. The ratio of 80 to 1,100 is as one to thirteen and three-fourths, or in other words, the Government has given one acre to make thirteen accessible, and to bind the whole country together with internal commercial and industrial relations, as well as to supply the means of defending the Pacific Slope in case of war.

Not only has the Government secured the completion of two transcontinental roads and made the completion of two others probable, but it has given a great stimulus to the construction of branch roads which have been built without national aid. The Northern Utah extends 370 miles northward from Ogden; the Southern Utah extends 140 miles southward from Ogden, making 510 miles of road on the meridian of Salt Lake. The road from Palisade to Eureka is 90 miles, and that from Battle Mountain to Austin 93 miles long. The Virginia and Truckee road is 52 miles long, and is to be extended 100 miles southward from Carson City. All these open up the National domain and give access to regions that will be occupied by many millions of people.

Yesterday we gave the Reno Gazette the credit of being the first paper to expose Sharon. Looking over the back files, however, we find the Appeal's opposition to Sharon for general incompetency and neglect of duty began four years ago.—(Carson Appeal.)

If you look back over the JOURNAL files you will find that its opposition began when he was a candidate the first time—nearly seven years ago. And if the JOURNAL has not followed it up ever since we are badly mistaken.

The Herald, discussing the New York Senatorial prospects, says: It is certain that a vigorous effort will be made to defeat the Conkling candidate. The anti-Conkling faction claim a majority of eleven of the Republican State Senators, and unless the Conkling men have more than eleven majority among the new Republican Assemblymen, they can elect Chauncey M. Depew or Sherman S. Rogers of Buffalo. The Conkling candidate is Levi P. Morton.

On good authority the Eureka Sentinel circulates the rumor that upon the return of Congressman Daggett from Washington, Mr. Fred Hart will step down and out of the management and sanction of the Territorial Enterprise. Mr. Daggett will succeed to all the honors and emoluments of the institution, and will be there to stay.

A New York correspondent of the Philadelphia Ledger learns that Governor Cornell, in his forthcoming annual message, will earnestly second the proposition that ex-Presidents should have seats as Senators at large in the United States Senate. Senator Conkling is understood to be unqualifiedly committed to it.

The San Francisco Board has reduced the cost of listing stocks on the Board from \$1,000 to \$500.

Weaver received more votes in Humboldt county, California, than he did in New York City.

JOB PRINTING.—This office has every facility for doing all kinds of job printing. And inasmuch as all home industries should have the preference over all others, we should be pleased to receive orders at any time for that class of work.

Have you seen those handsome new suitings at Sol Levy's?

For points in stocks, go to Sol Levy; he can oblige you with stock-ings, at from 10c per pair and upwards.

Buy your merino and muslin underwear of Sol Levy; he sells them the cheapest.

Wm. Goeggel is classed amongst the most skillful watchmakers on the Pacific Coast.

Buy your dress goods of Sol Levy, the reliable.

The Weekly JOURNAL issued to-day is a splendid specimen of a country newspaper. The subscription price is only \$2 50 per year. Take a copy yourself, and send another away to some friend.

Sol Levy is not closing out, and yet he sells all his dry goods for less than any other store in this town or State, without any exception.

Buy your silks and satins of Sol Levy; he has the largest variety at bottom prices.

Flannels, muslins, table linens, etc., are sold for less at Sol Levy's than they could be imported for.

The cheapest place in Reno for drugs, medicines, and patent medicines, is at Myers' drug store, two doors west of the Postoffice.

INSURANCE AGENCY.—I am prepared to insure all kinds of property at reasonable rates in either foreign or American insurance companies. I am agent for twenty-four companies having a combined capital of forty-three million, five hundred thousand dollars. I represent the Pacific Coast Agencies, Hutchinson & Mann, Jacobs & Easton and H. W. Snow. All persons desiring insurance in first-class companies can obtain it by applying to me. Policies written on the day of application.

WM. N. KNOX.

NICHOLS' INFALLIBLE INJECTION.—Guaranteed to cure promptly and permanently every case of Gonorrhea, Gleet and Whites, no matter of how long standing, if directions are followed. Internal medicine not recommended or necessary. A cure guaranteed or money refunded. Directions given in English, Spanish, French and German. For sale by Pinniger & Queen, druggists, west side of Virginia street.

CONKING.—"Brown's Bronchial Troches" are used with advantage to alleviate Croup, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"Brown's Bronchial Troches" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. Speakers and Singers find the Troches useful.

A COUGH, COLD, CATARRH or Sore Throat requires immediate attention, as neglect often results in some incurable Lung Disease. "Brown's Bronchial Troches" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "Brown's Bronchial Troches" are sold only in boxes.

For first-class Havana cigars, two for 25 cents, call at John F. Myers' drug store, two doors west of the Postoffice.

THE CRADLE.

FRASER—At North Truckee Meadows Nov. 18, 1880, to the wife of Wm. Fraser, a daughter.

Forging & Machine Work.
At lower prices than can be obtained elsewhere. Drawings and estimates furnished when required. By strict attention to business and with a thorough knowledge of the work required, the proprietor hopes to merit the confidence of the trade, and respectfully solicits the patronage of mill and mining men.

ANDREW FRASER, Proprietor.

HOSTETTER'S
CELEBRATED
STOMACH BITTERS

Meets the requirements of the rational medical philosophy which at present prevails. It is a veritable pure vegetable remedy, embracing various important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and vitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

For sale by all Druggists and Dealers generally.

ANNUAL MEETING.

THE REGULAR ANNUAL MEETING OF Golden Place Gold and Silver Mining Co. will be held at the office of the Company, Odd F. House Building, Reno, Nevada, on Wednesday the 10th day of December, 1880, at the hour of 2 o'clock P. M., for the purpose of electing a Board of Trustees to serve during the ensuing year, and the transaction of such other business as may come before the meeting.

L. C. BAYCHLEUER, Secy.
Reno, November 17th, 1880.

NOTICE.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for Washoe County. In the matter of the estate of John Johnston, deceased. Notice of application for the admission of the will and testament of said deceased to probate and letters testamentary. It is hereby given that Jno. S. Shoemaker and H. B. Boyd, have filed with the Court, of this county, a petition praying that the last will and testament of said John Johnston, deceased, be admitted to probate and letters testamentary upon the estate of John Johnston, deceased, and that the 16th day of December, A. D. 1880, at ten o'clock in the forenoon of said day, the same be taken as the day of the hearing of said petition, and that the 16th day of December, A. D. 1880, at ten o'clock in the forenoon of said day, the same be taken as the day of the hearing of said petition, and that the 16th day of December, A. D. 1880, at ten o'clock in the forenoon of said day, the same be taken as the day of the hearing of said petition, and that the 16th day of December, A. D. 1880, at ten o'clock in the forenoon of said day, the same be taken as the day of the hearing of said petition.

NOTICE OF ADMINISTRATRIX SALE OF REAL ESTATE.

NOTICE IS HEREBY GIVEN THAT IN pursuance of an order of sale of the District Court of the second Judicial District of the State of Nevada, held in and for Washoe County, made on the 25th day of September, A. D. 1880, in the matter of the estate of Samuel M. Oakes, deceased, the undersigned, the Administratrix of said estate, will sell at public auction to the highest bidder for cash, gold coin of the United States, and subject to confirmation by said Court on Saturday the 11th day of December, A. D. 1880, at one o'clock P. M., said day, at and in view of the property herein described, in the town of Reno, county of Washoe, and State of Nevada, all the right, title, interest and estate of the said Samuel M. Oakes at the time of his death, or that his estate has since in any manner acquired in and to the west ninety feet of that parcel of land known and described on the maps of the town of Reno, above held, as lot number one in block P of said town of Reno with the improvements and improvements erected on the south 1/2 of said parcel of ground with the ground lease and rent of the 1/2 by 80 feet said parcel of land north of the 1/2 of said parcel of land, and also the building and improvements on the north 1/2 by 80 feet of said 40 by 90 feet, which buildings and improvements extend to the 1/2 by 80 feet of said land, and improvements will be sold separately from said 40 by 90 feet of land. If said land and improvements above described shall not be sold at public auction on the day above named, by reason of any failure of bidder or other good and lawful reason then said premises will be afterwards sold at private sales by the undersigned when a suitable purchaser shall be found. The terms and conditions of such sale, whether public or private, will be 1/2 cash in United States gold coin, ten per cent of the sale price to be paid on the day of sale, the balance on the consummation of such sale. Deed at the expense of purchaser. Unless such sale is made to the owner of the mortgage described in the aforesaid order of sale, which said premises are to be sold to satisfy and pay in which event said property will be sold to the owner of said mortgage on the terms prescribed in said order of sale. BRUCE F. FARRIS, Administratrix of the estate of Samuel M. Oakes. Reno, November 17th, 1880.

The Reservation Case.

An order was entered last Tuesday in each of the United States Courts for his district, requiring all the defendants in the reservation cases of last year, to be and appear for sentence on the first Monday of December next. These defendants were all convicted of violations of the Insubordination laws, and the judgment in each case has been put off from time to time, in expectation of pardons being granted. Under special instructions from the Department of Justice, however, the U. S. District Attorney now foresees the probabilities to final sentences.

Reform Club.

The following programme has been arranged by Mrs. Jaques, to be presented at the Reform Club this evening: Song, No. 26..... Club Solo Mrs. Brookings Mrs. Jarley's wax works..... Club Solo Mrs. Duet. Mrs. Bedenoch and Miss Monroe Reading..... Miss Knowlton Solo..... Miss Toombs Installation of Officers..... Club Piano Solo..... Miss Marzen Song, No. 15..... Club Dancing as usual.

The newly elected officers are requested to be present.

The Coming Fair.

The Fair for the benefit of Mt. St. Mary's Academy will open at the Pavilion next Monday night and continue throughout the entire week. There will be dancing every evening and on Thanksgiving night there will be a regular ball. Mother Dolores, Sister Superior, asks us to tell the people, that this will be the last time for many years that the school will be the beneficiary of any public entertainment. We trust the Fair will be well attended.

The "Californian."

The most noteworthy feature of the December number of this magazine is an elaborate paper on Savonarola, contributed by Dr. Lord, the historical lecturer, which will be found of great interest and value. The remainder of the table of contents is fully up to the standard, and we are justified in endorsing the claim of the publishers that it is a "superb number."

The Evening Gazette has our thanks for the annexed:

The Reno Journal is ten years old to-day. It has been under its present ownership and editorial conduct since 1872, at that time passing to control of Senator Powning. The JOURNAL has been a very useful paper to Reno and Washoe county, and done much to advance the interests of this section. May it continue to flourish.

A lively spelling bee came off at the North Truckee school house on Wednesday evening. There were three matches and the winners were C. Gullick, Miss Minnie Gibbs and Miss Flora Northrop.

Bradley's Ballot Box, Jr., and Naden's Daisy are matched to run a dash of four miles on the race track next Monday, for \$150 a side. The race will take place at 2:30 P. M.

Ranchmen on the Truckee Meadows say the weather is at present the coldest they have ever experienced in November. The water ditches are frozen to a considerable depth.

The Lake divorce case comes up in the District Court of Ormsby county for final adjudication to-day.

Good baled hay is quoted at \$13 50 and \$14.

NEVADA INSANE ASYLUM.

The Structure Which that State Contemplates Erecting Near Reno—Saving of Expense.

[Sec. Sec. 1903.]

In the early part of the present year, A. A. Cook, the well known architect of Sacramento, received a communication from the Board of Commissioners for the Care of Insane of the State of Nevada, requesting him to prepare plans for a building suitable to accommodate 200 patients. They also requested him to have such work done in time to submit the same to the Legislature which is to meet January 30, 1881, so that an appropriation for the erection of the building might be procured this winter and the work of construction entered upon as early as practicable in the coming spring. In accordance with this request Mr. Cook set at once to work on the preparation of the plans, and completed the same a few days since. Last evening he left for Carson City, Nevada, and to-day he will lay before the Board the result of his labors. The care of the Insane of Nevada has heretofore and does at present devolve upon parties in California. The patients from that State are taken care of at a private asylum located near Woodbridge, San Joaquin county, and the State of Nevada pays the sum of \$7 per week for the care of each patient at such institution. As there are an average the year round of about 150 insane persons at such places, the cost of keeping them amounts to \$54,600 per annum. This enormous sum it is now proposed to save to the State by the erection of an asylum near Reno, and the building of such an edifice there will also have the effect of saving the large sums now paid out for the transportation of patients to this State.

LOCATION OF THE ASYLUM.

The new asylum is to be located 1 1/2 miles east of Reno, fronting on the main line of the Central Pacific Railroad, and the site is on 160 acres of land belonging to the State where it was some time since intended to erect a State prison. On this land there is already constructed a sandstone wall 450 feet in length on three sides, 5 feet in thickness at the base, 3 1/2 feet thick at the top, and 20 feet high, and this it is proposed to utilize in the construction of the asylum by taking the wall down to a height of 10 feet and using the stone in the new buildings. The location is probably as central and convenient as any that could have been chosen, in reference to the present means of communication with the various parts of the State, and to any routes of travel likely to be projected hereafter. The site selected for the building is upon ground nearly level, with a little slope to the Truckee river, which runs but a short distance from the rear of the building; and the location is in every respect healthful and desirable, and well adapted to the purposes and objects of an institution for the treatment of mental diseases.

ARCHITECTURE.

The style of architecture is domestic Gothic, this style being the least expensive, and best adapted to the site; and with its several projections, bays and towers, and with the hills on each side, and trees properly distributed about the grounds, will give a very attractive and pleasing effect to the whole when completed.

MATERIALS AND CONSTRUCTION.

The outside walls to the basement story will be constructed of stone from the walls of the State land (built for prison walls), and the interior foundations and all walls above the stone foundations are to be constructed of brick; and the front entrance, steps, belt courses, quoin block, outside window and door finish to the front and sides of the building are to be of stone; and the cornices, dormer windows, pinnacles, etc., are to be of galvanized iron; and the roof is to be framed in wood and covered with slate or metallic shingles; and the ridges to roofs and towers to have iron crestings.

The staircases to ward buildings, dumb-waiters, dust-flues, etc., are all to be inclosed with brick walls, and the stairs to have stone steps, and all doors connecting with the wards on the different stories to have stone sills with iron doors; the floors are to be defended between the floor timbers with mortar; and the floors to vestibule entrance halls and towers are to be paved with tile of a neat design; and the floors to boiler-room and laundry are to be paved with Portland cement; all other interior floors are to be laid with mountain fir or Mendocino pine; and the floors to corridors and ward rooms are to be finished with oil and wax; and the floors to bath-rooms and latrines are to be lined with lead and finished with marble trimmings. The ceilings will be lathed with wire lath, and the walls will be plastered, directly on the brick work, with pure lime and a white sand, troweled to a polished surface. This construction makes the building as nearly fire-proof as it is possible to make it without going to the expense of iron joists and brick arches.

GENERAL ARRANGEMENT.

The new Asylum is intended to face the north, and consists of a main and center building, with wings on each side, running east and west, and north and south, making a front of 424 feet, and a depth of 216 feet. The main center building and adjoining wards are to be three stories high, exclusive of basement and attic, and the extreme wards and rear center building will be two stories high. The number of patients and wards on each floor are appropriated as follows: First floor, 4 wards, males 49, females 40, 89; second floor, 4 wards, males 49, females 49, 98; third floor, 2 wards, males 23, females 23, 46; total, 242.

WINDOWS.

The windows are to be glazed and hung with weights, and all windows in the main building are to have inside box shutters; and the chapel windows will be glazed with stained glass; and all windows in the ward buildings will have iron guards inside of the glass to fasten with a lock and key; and it must

not be overlooked that there is not a dark room or corridor in the entire building but every bath-room, water-closet, or lavatory, has a window in each, communicating directly with the outside.

HEATING ARRANGEMENTS.

The boiler room at the extreme end of rear center building is fitted up with three large tubular boilers, which will furnish steam for warming the building, driving the machinery, pumping water, washing cooking, etc., etc.; one large horizontal steam engine and one engine attached to the fan, and three bins for coal. The steam is carried from the boilers through four-inch welded iron pipes to coils of pipe in the basement, which are built in brick air chambers, with flues leading to the rooms and wards above in each story. The fan will be four feet wide by sixteen in diameter, and the fresh air is to be taken from a brick shaft nearly fifty feet high from the ground and passes down to the fan room, and is then driven through the main air duct, which runs under ground until it reaches the main corridors, with branches to the chapel and main center building and the wards on each side beneath the floors of the corridors; and the distributing flues pass up in walls on each side of the corridors to the rooms above; and the exit flues are carried up in the same walls, one starting near the floor and the other near the ceiling, and which continue up to the attic and discharge into the open air through the large ventilators above the roofs. The water closets and bath rooms will have flues built for both upward and downward drafts for their ventilation. The only flues required in the building are those in the boilers, kitchen, bakery and ironing rooms.

WATER SUPPLY.

It is proposed to have three water tanks on the upper stories of the towers, capable of holding at least thirty-six thousand gallons of water, and to be so arranged that one or all may be used at pleasure. The water to supply the tanks, and flushing the sewers, etc., will be pumped from a ditch running through the grounds. Hydrants are to be placed on the landings of each staircase throughout the building, and in the yards outside, with hose attached, ready to be used in case of fire. The center building will be supplied with hot water from the kitchen boiler heated from the water-back to the range. The boilers for supplying the bath-rooms, and will be heated from steam cells from the Summer pipes.

DRAINAGE.

The drainage will be from the rear of the building through large-size iron-stone pipes, well trapped and ventilated; and to discharge into the Truckee river; and be so arranged that they can be flushed out every twenty-four hours.

COST OF THE BUILDING.

The estimated cost for the entire buildings complete, including boilers, tanks, engines, pumps, fan, steam, heating, ventilating, cooking utensils, laundry machinery, yard walls, privies, sewer-pipes, etc., will be about \$359,625; and the place will accommodate 242 patients; or by leaving off the two extreme rear ward buildings, the main center buildings and two reception ward buildings, it can be erected for about \$274,163, and will accommodate 154 patients, and by using the attic of the main building it will accommodate 200 patients.

A letter addressed as follows is held for postage at the Gold Hill Postoffice: Mrs. Annie Fulstone, Brown's station, near Reno, Nevada.

Alvaro Evans last night left for the Bay, to attend to some important business. He will only be absent about a week.

The freighting up north is lighter now than it has been for some time past.

MOTHERS! MOTHERS!! MOTHERS!!! Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the little sufferer at once—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. JAMES C. WATSON.

A GENTLE HINT.—In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boechee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75c.

THE RIVER MILLS.—The Brunswick, Mexican and Morgan mills have from 38 to 40 men each on their pay rolls. The Brunswick is temporarily shut down to allow the wood drive of the Genoa Flume Company to pass. The mill has about four months' supply of tallings on hand. The Mexican has a like amount and the Morgan half as much. When these tallings are exhausted the mills will have to cease working unless Mr. Fair succeeds in the meantime in laying bare the long looked for and promised bonanza. —[Carson Times.]

FURNISHING

GOODS.

If you go to the right place to get them. This is a mighty important point for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we do; competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Every body is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of the State. Everything we have is new, old, musty and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods forms one of our specialties. Orders from the country promptly attended to. Look out for the White Building with the Gold Sign.
